The area median income (AMI) is the midpoint of a region’s income distribution, meaning that half of households in a region earn more than the median and half earn less than the median. A household’s income is calculated by its gross income, which is the total income received before taxes and other payroll deductions.

2021 AMI Limits (Annual income)

Household Size	1	2	3	4	5	6	7	8
30% AMI	\$17,500	\$19,500	\$21,960	\$26,500	\$31,040	\$35,580	\$40,120	\$44,660

The Fair Market Rent (FMR) limits are for total housing costs (rent and utilities). Any utilities not included in rent must be deducted from FMR (total cost cannot exceed FMR limit). TBRA outside city limits units are the only exception – utility costs do not need to be factored in for FMR limits for this program.

2021-2022 FMR Limits and Average Utility Costs
