COMMUNITY EFFORTS

Help Me Grow & County Health Navigation System

Presentation and conversation

Help Me Grow King County

Help Me Grow King County responds to our family, connecting us to what we need, when we need it, how we need it.

King County
Best Starts for KIDS
 happy, healthy, safe & thriving.

We heard from communities that there needs to be an easier way to get the right information at the right time. These are our goals:

Coordinated Access

Connect a network of organizations that provide families and communities culturally and/or linguistically matched connections to services and resources.

Family & Community Partnerships

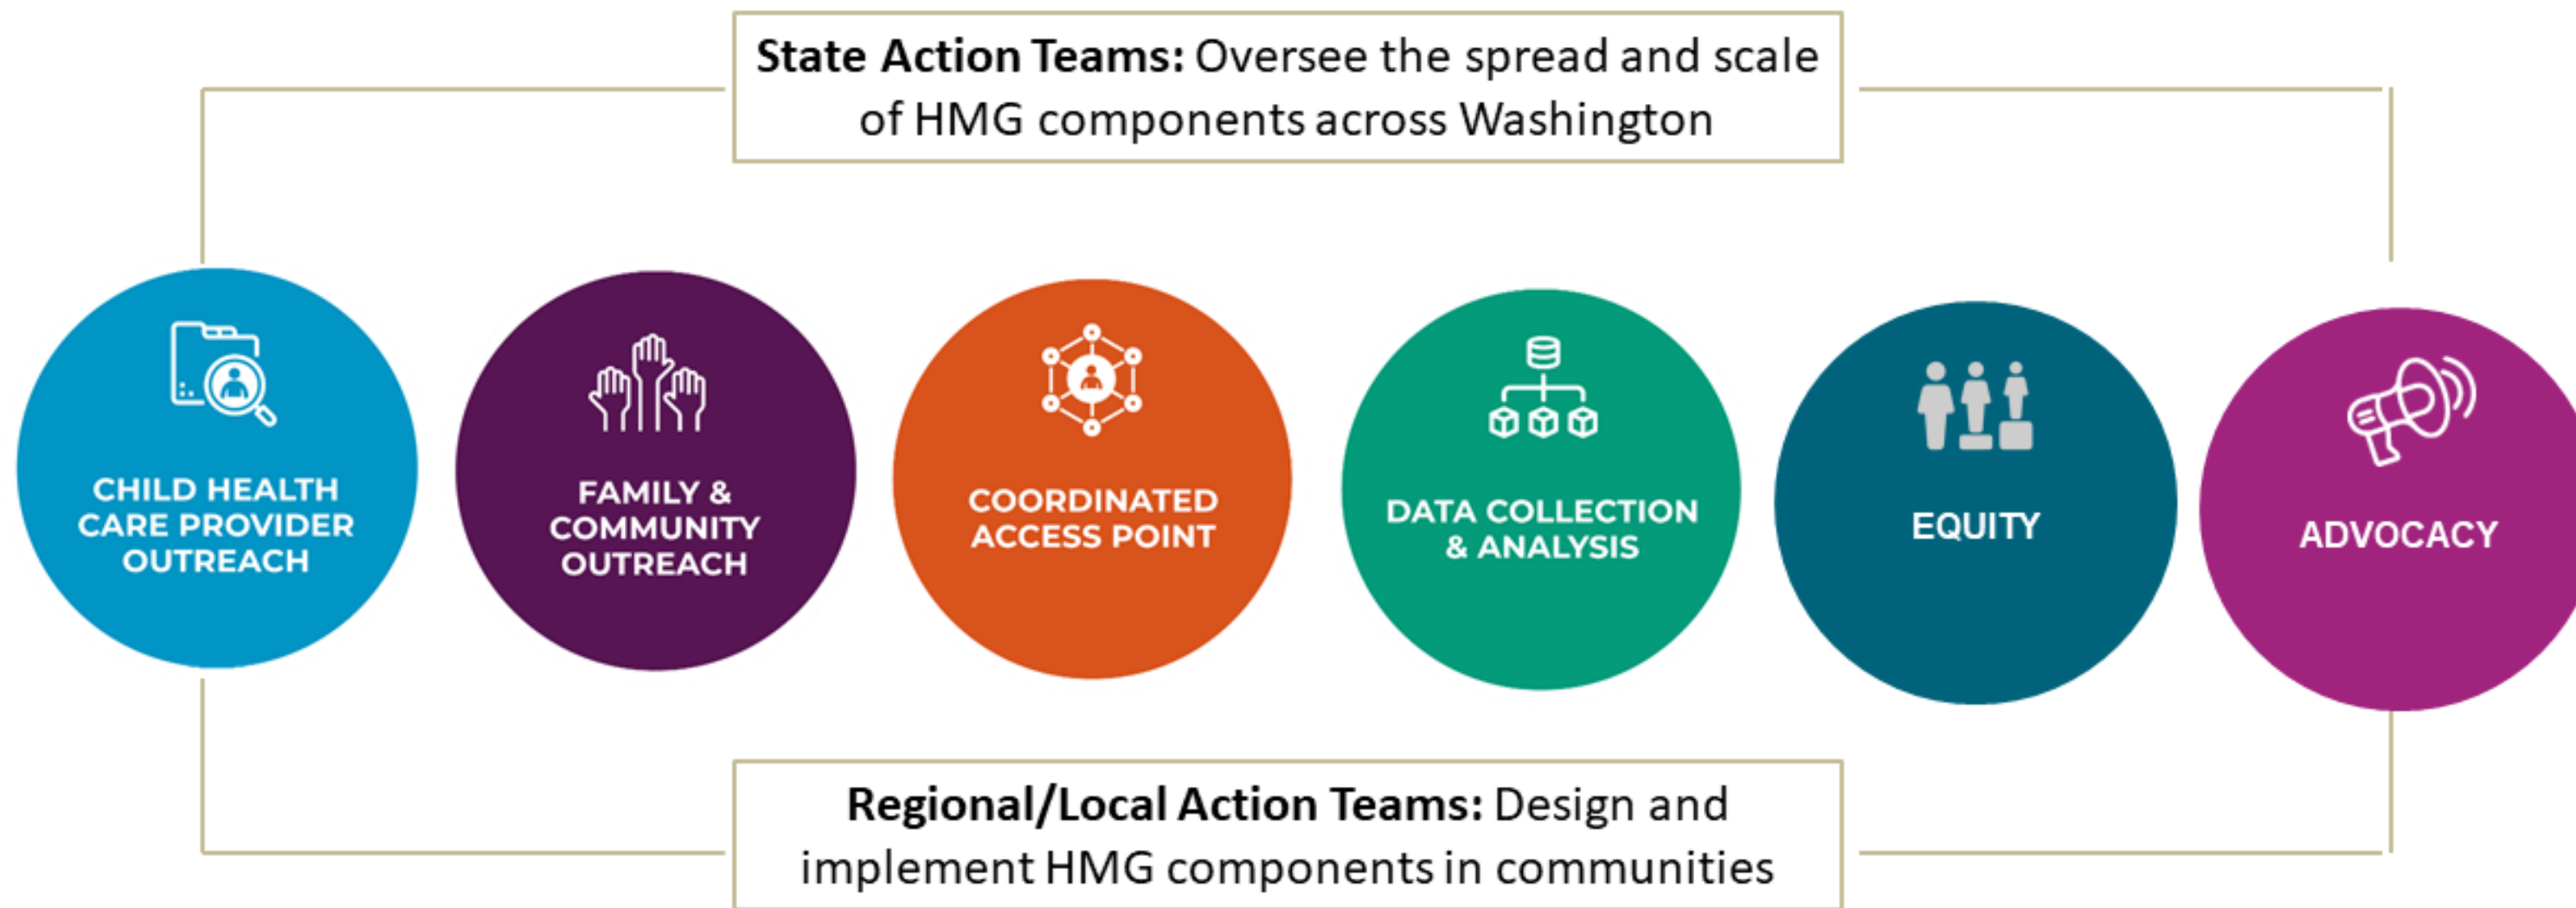

Authentic relationships with families and communities to ensure King County families define the Help Me Grow King County system.

Data Collection & Evaluation

Quality information about the services available to families; increase access to information about the services available to families; and better understand how families interact with services.

Service Provider & Professional Partnerships

Collaborative relationships with early learning, social service, health and mental health providers to strengthen coordination and ways people get information.

RESOURCE DATABASE

Updates:

- **Creating a work group**
 - Will schedule a demo of Vinculo system
